

## “Bruiser Cruiser”

By Joe Dawson of Bruiser Industries

### COURSE OF FIRE

Begin each course of fire with 2 rounds in your rifle (one in chamber, one in the magazine) and a second magazine of at least 2 rounds. This exercise will require 20 rounds, 4 rounds per string. The target will be an IPSC target with a 3" x 5" note card as an enlarged head 'A Zone' and a half piece of printer paper as a reduced "A Zone" (8.5" x 5.5"). Shots taken from the close shooting positions (P1, P2, and P3) will be to the head "A Zone". Shots taken from the far shooting positions (P4, P5, and P6) will be to the reduced center mass "A Zone". After each string, record your time and reset for the next string.

String 1 – On the stimulus, engage the center mass "A Zone" from P4, reload while moving to P3, engage the head box "A Zone" from P3  
 String 2 – On the stimulus, engage the center mass "A Zone" from P6, reload while moving to P1, engage the head box "A Zone" from P1  
 String 3 – On the stimulus, engage the head box "A Zone" from P1, reload while moving to P6, engage the center mass "A Zone" from P6  
 String 4 – On the stimulus, engage the head box "A Zone" from P3, reload while moving to P4, engage the center mass "A Zone" from P4  
 String 5 – On the stimulus, engage the head box "A Zone" from P2, reload while moving to P5, engage the center mass "A Zone" from P5

### SCORING

Combine the times of all strings into a single aggregate time

Score target out of 100 possible points

A = 5 pts C = 3 pts D = 1 pt MISS = 0 pts

### MODIFICATION

This exercise can be set up using cones as point to move between, you may also use barrels as points to run to and shoot behind in order to simulate a movement to cover and shooting from cover.
